Dear Parent/guardian

Re: School Hearing Screening visit 30.09.19

Routine school hearing screening for your child will take place within this academic year whilst your child is in **Year 1** or **put forward as a school concern**.

The screen involves putting headphones over your child's ears and asking them to respond to sounds.

It is important to screen your child's hearing to detect any potential hearing loss as this may affect your child's educational development. If a hearing problem is suspected we will offer you a full assessment appointment.

You do not need to be present for the screen and we will inform you of the results via a letter sent home with your child on the day of the screen.

If you want your child's hearing to be screened DO NOT COMPLETE the section below and DO NOT return this to us.

Screen Declined

Please indicate below if you **do not** wish for your child's hearing to be screened, **and return this letter to the school:**

Childs Name _____ **Date of Birth** _____

- Child is already under review by ENT or Audiology and you do not wish them to be screened
- Child has a known hearing loss and a screen is not required
- You do not wish for your child's hearing to be screened for any other reason

If you have any questions please do not hesitate to contact the team.

Yours Sincerely,

Tina Harris
Principal Audiologist
