Salisbury Primary School – Summer Term 2 Newsletter

5th June 2024

Dear Parents/Carers,

We are fast approaching the end of this academic year but still have so much to do and get through! The children are going to be involved in many different and enjoyable activities so please make a note of the things taking place.

Year 4 children will of course be taking part in the multiplication tests this half term so they have been practicing and we are really pleased with the progress they have been making.

Year 1 children will take part in the phonics screening check soon and they too have been preparing themselves for this.

Our enrichment activities are enjoyed by a number of children now and we hope to see more children come along this half term. This is a great chance for children to try out something different and learn new skills.

On another note, you will have seen the further developments taking place to improve the school, both inside and outside and I hope this has not caused too much inconvenience. I'm sure you will agree though that we have a great learning environment now for our children.

Thank you for your excellent support as always.

30 Day Attendance Challenge

Thank you to everyone who completed the 30 day attendance challenge. A great effort and encouragement has led to children engaging every day. Certificates have been awarded to all children who improved their attendance! We have made a great start to improving attendance and punctuality across the federation which we will continue through to the end of year. All the children have been enthusiastic when stickers are given out to individuals and class rewards weekly.

Please continue encouraging your children to attend school regularly, on time. We will re-launch the 30 day challenge again to give children another opportunity to improve attendance.

At the end of the summer term all the children's names with a golden ticket will be placed into a prize draw to win one of the prizes

If your child's attendance has improved and is above 90% they will receive one golden ticket

If your child's attendance has improved and is above 95% they will receive two golden tickets

Mrs Matharu
Executive Headteacher
