

# Year 1

This half term has been exciting and the children have shown excellent dedication to their reading in preparation for the phonics screening test. They have approached this with resilience and determination, demonstrating a commitment to their learning.

We are confident that their efforts will be rewarded, and we look forward to celebrating their achievements with them later this year. Thank you for your continued support!

## Highlights

This half term we have had many amazing moments. The first of which is our visit to the local allotment. Here, the children got to see how food is grown and why. They spoke to people who own an allotment and found out how to look after plants that are food.

Next, we had a visit from 'Traction Man'. The children enjoyed asking questions to a real-life superhero and finding out how to be one themselves. Finally, to end the half term we invited parents in to take part in our 'Sensational Seasons' workshop. Parents and children enjoyed working together to create seasonal trees using different media and materials.
