

The children had a fantastic start to the school year in our 'Around the World' theme. Year 3 chose to explore the country France.

The children began by learning about the country's flag and national animal. They enjoyed immersing themselves in the French language, colours and phrases.

They took part in team sports as part of our learning about the recent Olympics and worked creatively to make masks to celebrate the French festival 'Mardi Gras'.

The children were particularly excited to learn about French food and loved making chocolate croissants. They created artwork to represent the famous artist, Monet.
